Responses to Questions
Request for Application:
Evaluation of Digital Health
Capacity Strengthening Programs
#2022-034
August 8, 2022

The following are the responses of Digital Square at PATH to questions regarding the Request for Application: Evaluation of Digital Health Capacity Strengthening Programs on July 19, 2022. The deadline for asking questions was 5:00 p.m. EST on August 1, 2022.

Question 1

Question 1: For the existing Digital Health Applied Leadership Program (DHALP) countries, i.e., Cameroon, Democratic Republic of the Congo, Guinea, Malawi, and Zimbabwe, will the service provider be expected to travel for primary qualitative data collection, e.g., key and group informant interviews?

Answer 1: PATH does not dictate if primary data collection should occur in person or through virtual formats.

Question 2

Question 2: Is there a requirement for French-speaking capability amongst the team put forward by the service provider?

Answer 2: The applicant should indicate how they intend to evaluate the program for both anglophone and francophone cohorts.

Question 3

Question 3: Regarding the questions related to the learning process, please confirm that there are secondary data sources that will contribute to answering these questions.

Answer 3: Secondary data will be available from the program.

Question 4

Question 4: Given the budget constraints, what will the level of support be from PATH related to any prep work (e.g., developing tools, getting participant lists, etc.)?

Answer 4: A management team from PATH will work with the selected applicant to provide a link between DHALP and the evaluator(s). The applicant may propose support required from the PATH management team in their proposal.
