Request for Application #2020-011
Community Health Community of Practice

I. Summary of Deadlines

The expected schedule for this application is outlined in the following table. Note that PATH reserves the right to modify this schedule as needed. All parties will be notified simultaneously of any changes through a modification posted on Digital Square’s website.

II. PATH Statement of Business

PATH is the leader in global health innovation. An international nonprofit organization, we save lives and improve health, especially among women and children. We accelerate innovation across five platforms—vaccines, drugs, diagnostics, devices, and system and service innovations—that harness our entrepreneurial insight, scientific and public health expertise, and passion for health equity. By mobilizing partners around the world, we take innovation to scale, working alongside countries primarily in Africa and Asia to tackle their greatest health needs. Together, we deliver measurable results that disrupt the cycle of poor health. Learn more at www.path.org.
III. Project Background

A. Project Background
Digital Square is a partnership of the world’s leading digital health experts from 40+ organizations working together with countries to strengthen digital health systems. In pursuit of our Mission: **connect health leaders with the resources necessary for digital transformation**, Digital Square offers a new way to invest in digital health—providing a space where countries and members of the global community can gather to think big and do good, together. By convening government officials, technological innovators, donor and implementation partners, and others across borders and boundaries in the Digital Square, we can grow possibility into reality by focusing on our common goal: **connecting the world for better health**. Digital Square works in three key ways:

- **Co-investment**: We coordinate investments in digital health to maximize the impact of every dollar spent.
- **Global goods**: We scale tools and technologies that can be adapted to different countries and contexts.
- **Digital market readiness**: We create digital market readiness by building capacity with governments, local technology developers, and health workers.

Digital Square and our donors are working, under the global goods banner, to foster the creation of a common set of principles and practices, reference architecture, and recommended standards/profiles for an interoperability framework for community health worker digital tools that will be easily replicable, reusable and adaptable for different country contexts.

Through this RFA, PATH seeks partnership with a subrecipient that can create a Community Health Community of Practice to address this challenge.

B. Proposed Project Timeline
PATH anticipates that the subaward will be up to 12 months. Preference for consortium consisting of global goods implementers actively working in the community health information space. As part of Digital Square’s due diligence, we will conduct pre-award evaluations of all shortlisted candidates. We will use our recipient pre-award survey, informed by USAID’s non-US organization pre-award survey (NUPAS) and other industry-wide standards, and customized for Digital Square. In addition to project-specific deliverables based on individual scopes of work, PATH will require applicants to provide, at minimum, quarterly narrative and financial reports to support their work.

IV. Scope of Work and Deliverables

A. Scope of Work
Currently there is a lack of standards and interoperability for community health worker (CHW) digital support tools. This creates fragmentation and duplication in country implementations, limiting the broader use of these tools and the interchange of information between CHW tools and supporting resources, such as supply chain systems and health worker registries.

Digital Square is accepting applications focused on creating a Community Health Community of Practice that will develop a **common set of principles and practices; reference architecture; and recommended standards/profiles for an interoperability framework for community health worker digital tools** that will be easily replicable, reusable and adaptable for different country contexts.
Technical requirements:

- The framework must clearly identify and outline community health workflow scenarios that leverage open data standards (e.g. community health worker management, clinical and referral workflows).
- The framework must consider standards inclusive of HL7 FHIR, Clinical Quality Language, and be capable of being readily adopted by vendors.
- Undertake a review of the use and applicability of HL7 FHIR for use by mobile solutions for community health workers. This may be a consolidation of community experiences, opinions and future product features.
- The CHW workflows must be compatible with the best practices and guidance articulated by standard- and norms-setting bodies (e.g. WHO's Computable Care Guidelines, IHE profiles and white papers, and the OpenHIE architecture).
- Work is expected to be conducted in an existing community body such as OpenHIE, either aligning to an existing community or creating a new community, and engage the broader community (experts, vendors etc.)

B. Deliverables

- At minimum, quarterly progress reports.
- Establishment of a Community of Practice for community health workflows under OpenHIE.
- A review on the use of HL7 FHIR on mobile devices, focused on community health worker support in LMICs.
- A consensus-based approach to reference architecture and standards for an interoperability framework for community health worker tools, presentable to normative organizations such as the WHO, ITU, HL7 and IHE for vetting and broad recommendation; and
- A listing of community health tools which support identified community health workflows.

V. Application Requirements - Cost

Up to **$125,000 USD** is available for a single year activity. This estimate is provided for informational purposes to the offerors and is not binding.

The applicant should provide a detailed explanation of costing and describe the reasonableness of each proposed cost in the budget narrative.

Digital Square will evaluate the quoted prices and hourly rates. No analysis will be performed on quotes determined as non-responsive or if the technical quote is determined to be technically unacceptable. The price/business evaluation will be conducted in accordance with the quoted utility-based solution and proposed labor categories, their rates, and Evaluation Matrix. Digital Square will conduct an analysis to determine if all quoted prices are reasonable. This evaluation is conducted with the expectation of adequate price competition and will rely heavily on market forces to determine whether proposed prices are fair and reasonable. The comparison of proposed prices in response to this solicitation is the preferred and intended price analysis technique.

Digital Square will also compare the proposed prices to historical prices paid for the same or similar services and the independent government cost estimate. Other techniques and procedures may be used to ensure quoted prices are fair and reasonable. A cost realism analysis will be performed to determine whether the quoted Level of Effort is realistic for the work to be performed, reflects a clear understanding of the requirements and is consistent with the unique methods of performance set forth in the company’s technical quote.
Required Elements
The Cost Application must include a budget narrative, detailing the cost and cost basis applied in generating the application. The Cost Application must also include a detailed budget that is itemized along the cost categories defined above. This detailed budget should be submitted in an unlocked Excel spreadsheet and must include the following information:

- Personnel at minimum the budget should detail:
  - All proposed staff/positions with daily rates.
  - Total number of days in total level of effort according to key staff.
- Itemization of all other costs (e.g., agency costs, service tax, administrative costs, supplies, etc.).
- Estimated schedule of other anticipated expenses (travel, sub awardee resources, supplies, outside resources, etc.).
- Details of all subcontracting out of work, this includes proposed consultants as well as proposed sub awardees.

The Cost Application shall begin with a summary budget detailing costs in the following categories:

<table>
<thead>
<tr>
<th>Description</th>
<th>Total Cost (USD)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Personnel</td>
<td></td>
</tr>
<tr>
<td>Fringe Benefits</td>
<td></td>
</tr>
<tr>
<td>Travel</td>
<td></td>
</tr>
<tr>
<td>Equipment</td>
<td></td>
</tr>
<tr>
<td>Supplies</td>
<td></td>
</tr>
<tr>
<td>Other Direct Costs</td>
<td></td>
</tr>
<tr>
<td>Contractual</td>
<td></td>
</tr>
<tr>
<td>Consultants</td>
<td></td>
</tr>
<tr>
<td><strong>Total Direct Costs</strong></td>
<td></td>
</tr>
<tr>
<td>Indirect Costs</td>
<td></td>
</tr>
<tr>
<td><strong>Total Project Costs</strong></td>
<td></td>
</tr>
</tbody>
</table>
Special Note on Indirect Costs

Indirect costs are overhead expenses incurred as a result of the project but not easily identified with the project’s activities. These are administrative expenses that are related to overall general operations and are shared among projects and/or functions. Examples include executive oversight, existing facilities costs, accounting, grants management, legal expenses, utilities, and technology support.

If your organization includes indirect costs in the budget, you must provide a Negotiated Indirect Cost Rate Agreement with the US Government or three years of audited financials to PATH to validate the use of this rate.

VI. Application Requirements – Technical

Provide a narrative on your technical approach to accomplish the Scope of Work identified in section IV, including:

- Description of technical approach which includes:
  - Problem statement and solution approach.
  - A description of how your solution will accomplish each of the subtasks in this application.
  - A description of how your solution will scale to growing needs of users across the globe.
  - Notional roadmap for your solution, aligned to the subtasks in this application.
  - Potential obstacles and plans to overcome them.
- Timeline to meet the deliverables.
- Identification of major internal and external resources.
- Profile of relevant corporate qualifications.
- Profile of relevant experience and examples of related work.
- Staffing plan accompanied by Curriculum Vitae (CV) for key technical positions.
- List of certifications possessed by each key technical personnel.
- Number of years in business.

Annual revenue

If your company has more than one location, please indicate these qualifications and revenue for the site that is responding.

VII. Additional Attachments

1. Illustrative Work Plan. An illustrative first year work plan timeline should be included in the Annex. This work plan should include illustrative results and describe specific interventions to achieve those results. The illustrative work plan should describe specific interventions (activities) planned for the relevant tasks and should include a timeline providing target dates for achievement of milestones and illustrative results.
2. Resumes and Letters of Commitment for all proposed Key Personnel. A complete and current resume and letter of commitment must be submitted for each key personnel position. Resumes must detail the requisite qualifications and experience of the individual. Qualifications, experience and skills shall be placed in chronological order starting with most recent information.
3. Staffing Plan. Offerors shall include a staffing plan, including specific position titles and the approximate level of participation for each position (percentage of Full Time Equivalent and time period).
4. Third tier Sub awardee Agreements, Contracts or Commitment. Offerors may submit any agreements, contracts or commitments it has with any potential third tier- sub awardee.
5. Past Performance Information Sheets.
6. Awards. Include any information on awards or certifications.

VIII. Application Evaluation Criteria

The following is a list of significant criteria against which applications will be assessed.

1. Technical Approach that conforms to all of the components listed in Section VI above (40 points)
   - Description of technical approach.
   - Timeline to meet the deliverables.
   - Identification of major internal and external resources.
   - Qualifications.
   - Profile of relevant experience and examples of related work.
   - Staffing plan accompanied by CVs for key technical positions.
   - List of certifications possessed by each key technical personnel.
   - Number of years in business.

2. Experience - to be validated by past performance references (15 points).

3. Experience in the design, development and deployment of Community Health Information Systems in low- and middle-income countries to support community health worker management, clinical and referral workflows (15 points).

4. Costs - as detailed in Section V (30 points).

Note: PATH reserves the right to include additional criteria.

VIII. Instructions and Deadlines for Responding

A. PATH contacts
Program Contact: Kendra Givens, kgivens@path.org
Procurement Contact: Jessica Nguyen; jenguyen@path.org
Technical Lead Contact: Carl Leitner, cleitner@path.org

B. Applications Due: March 23, 2020 5pm EST
Completed applications should be submitted by email to the contacts listed above. The subject line of the email should read: “RFA # 2020-011- (Applicant name)”

We advise that you send files in commonly recognized MS formats. We will not accept responsibility for resolving technical transmission problems with applications. A hard copy of the application should not be sent. Your application should only include information specific to accomplishing the scope of work. Additional information submitted outside of the application requirements will be reviewed at PATH’s discretion only. Elaborate materials, artwork or other information not directly related to the scope of work are not suggested.
C. Fact-finding questions
Questions regarding this solicitation will be accepted via email to the contacts listed above through March 9, 2020 at 5pm EST. Responses to all submitted fact-finding questions will be posted to Digital Square’s website on March 11, 2020. Please note that responses will not be confidential except in cases where proprietary information is involved. Inquiries after this date cannot be accommodated.

D. Conclusion of Process
Applicants will be notified of the decision by April 3, 2020. Final award is subject to the terms and conditions included in this solicitation, as well as successful final negotiations of all applicable terms and conditions affecting this work.

IX. Terms and Conditions of the Solicitation

A. Notice of non-binding solicitation
PATH reserves the right to reject any and all bids received in response to this solicitation and is in no way bound to accept any application. The applications submitted through this RFA process are the responsibility of the submitter and do not necessarily reflect the views of the United States Agency for International Development (USAID), the United States Government, or PATH.

B. Confidentiality
All information provided by PATH as part of this solicitation must be treated as confidential. In the event that any information is inappropriately released, PATH will seek appropriate remedies as allowed. Applications, discussions, and all information received in response to this solicitation will be held as strictly confidential, except as otherwise noted.

C. Conflict of interest disclosure
Suppliers bidding on PATH business must disclose, to the procurement contact listed in the RFA, any actual or potential conflicts of interest. Conflicts of interest could be present if; there is a personal relationship with a PATH staff member that constitutes a significant financial interest, board memberships, other employment, and ownership or rights in intellectual property that may be in conflict with the supplier’s obligations to PATH. Suppliers and PATH are protected when actual or perceived conflicts of interest are disclosed. When necessary, PATH will create a management plan that provides mitigation of potential risks presented by the disclosed conflict of interest.

D. Communication
All communications regarding this solicitation shall be directed to appropriate parties at PATH indicated in Section VIII. A. Contacting third parties involved in the project, the review panel, or any other party may be considered a conflict of interest and could result in disqualification of the application.

E. Acceptance
Acceptance of an application does not imply acceptance of its terms and conditions. PATH reserves the option to negotiate on the final terms and conditions. We additionally reserve the right to negotiate the substance of the finalists’ applications, as well as the option of accepting partial components of an application if appropriate.

F. Right to final negotiations
PATH reserves the option to negotiate on the final costs and final scope of work, and also reserves the option to limit or include third parties at PATH’s sole and full discretion in such negotiations.
G. Third-party limitations
PATH does not represent, warrant, or act as an agent for any third party as a result of this solicitation. This solicitation does not authorize any third party to bind or commit PATH in any way without our express written consent.

H. Application Validity
Applications submitted under this request shall be valid for 90 days from the date the application is due. The validity period shall be stated in the application submitted to PATH.
